

Just as every life lived is unique, so too is the celebration of your loved one's life. You may not yet know the type of ceremony you'll choose for your loved one.

Here are some things to consider when planning together as a family:

- Look through photo albums or electronic media devices and gather pictures to create photo-memory boards or display photos in frames. That will allow us to create a complimentary video tribute.
- Bring in items for display to share your loved one's favorite hobbies, activities, work, etc.
- Consider choosing special music to play during the visitation or during the service.
- Discuss any tributes, unique processional vehicles, or other special requests the family may require.

Checklist of items that may be needed during the arrangement meeting. Meaningful services take careful planning, many decisions and, therefore, some thought on your part. We are here to help and guide you honor your loved one.

To help you be prepared for meeting with a director, please bring the following items:
